

Bring all your health plans into ERISA compliance at an affordable monthly rate with **ERISA Complete!**

Failure to comply with the strict regulations under ERISA (Employee Retirement Income Security Act of 1974) can result in stiff and hefty fines. But remaining current with these ever-changing rules and requirements is a full-time job, and most smaller companies don't have the resources to stay up-to-date.

ERISA Complete from Infinisource Benefit Services is the answer to this common problem. This helpful service is available at a flat monthly rate, making it much more affordable than paying an attorney's per-hour rates to review all documents.

ERISA Complete is powered by myHRcounsel, giving your clients access to more than 50 experienced employment and ERISA lawyers to help you draft key required documents and notices, answer questions, and ensure your welfare plans are all in ERISA compliance.

ERISA Complete customers also get access to the Compliance Center, which includes key employment, ERISA, and corporate law documents, along with legal overviews, checklists, and legal information for state and federal employment laws.

BENEFITS OF ERISA COMPLETE
