3 PHASES OF ONLINE ENROLLMENT

GO PAPERLESS AND TRANSFORM ENROLLMENT

1. BROKER PHASE

As the broker, you can launch a client's Online Enrollment using an existing CaliforniaChoice® quote. There's no need to build benefits or eligibility. You can simply:

- Begin the Employer Application, set the employer's contribution, and initiate online enrollment for the group.
- Verify census information.
- Monitor the group's enrollment from start through submission.

2. EMPLOYER PHASE

Taking on the next stage of the process, your group contact will:

- Complete the Employer Application.
- Confirm their employer contribution and product offering (including Ancillary) for employees.
- Launch the employee enrollment, monitor the process, and submit their completed enrollment to CaliforniaChoice after all employees have made their selections.

3. EMPLOYEE PHASE

After the employer launches the enrollment, employees will be asked to:

- Enter all of their personal and dependent information.
- View side-by-side plan comparisons and find the right coverage to match their individual or family health care needs.
- Choose their preferred health plan and benefit options and electronically sign.
