Are you at risk for diabetes?

More than 86 million Americans have prediabetes – and most don't even know it. Prediabetes means that blood sugar levels are higher than normal but not high enough yet to be classified as type 2 diabetes. Certain factors can increase one's risk of developing diabetes or prediabetes such as:

- **Weight:** Having a body mass index (BMI) over 25
- **Age:** Being age 40 or older
- **Ethnicity:** Being of Hispanic or African American origin
- **Activity level:** Having a more sedentary lifestyle

Support that's right for you

The Diabetes Prevention program offers:

- **In-person support:** Connect with a personal health coach.
- **Digital access:** Get peer support and real-time guidance.
- **Tools and resources:** You may be eligible to receive a wireless scale, activity tracker, and easy-to-understand tips.

Most participants lose 5% to 7% of their total body weight, which, according to the Centers for Disease Control and Prevention, results in a 58% risk reduction in developing type 2 diabetes.

See if you qualify

The Diabetes Prevention Program is brought to you in partnership with Solera Health. It is available as a covered benefit to eligible Blue Shield members at no additional cost.

Find out if you're eligible for the program by taking the following steps:

1. Visit **www.solera4me.com/shield**.
2. Answer a few questions.
3. Get your results.
4. Select the program of your choice.

The Diabetes Prevention Program is provided by Solera Health, an independent company.
