

# Get Well and Stay Healthy with Preventive Care Services from Health Net

## PREVENTIVE CARE COVERED BY THE ACA

When you enroll in a Health Net health plan, you get benefits and services under the Affordable Care Act (ACA).

### No deductible or copayment

When you and your family enroll in a health plan subject to the ACA, you have no deductible or cost share for preventive care services. You must get your preventive care from an in-network provider.

**Please note:** Some health plans are not subject to this ACA rule. You may be required to pay part of the cost for your care. Services you get from an out-of-network provider may not be covered.

### Preventive drugs

You may be covered for preventive drugs prescribed by your doctor and for those found over-the-counter. Examples of covered medication include:

- **Aspirin** to prevent cardiovascular disease. Also, to prevent preeclampsia in pregnant women.
- **FDA-approved birth control** methods
- **Breast cancer preventive medication** for women who are at increased risk.
- **Tobacco cessation drugs** to help users quit tobacco.
- **Folic acid** for women pre-pregnancy.
- **Oral fluoride supplements** for children where the water source does not contain fluoride.
- **PrEP** (pre-exposure prophylaxis) medicine for people at risk for HIV.

**Note:** Your doctor must prescribe these items under pharmacy benefits.

(continued)

This flyer outlines preventive care (services and screenings to help prevent disease and health conditions) including well-child care covered by the ACA. Use this rundown to talk to your doctors about the need for preventive care to keep you/your family on a healthy path.
