# Stretch Benefits with Preventive Passport

*The Principal® Dental Series II (PDS II) product from Principal Life Insurance Company offers many competitive features, including Preventive Passport.*

Easy to offer and use, this benefit encourages routine dental care for members and their families. Seeking preventive care can also help reduce costly services in the future. Preventive Passport is available with all PDS II benefit designs.<sup>1</sup>

### Preventive Passport

helps members stretch their dental benefits with preventive services that don't count against their annual maximum.

## HOW it works

- When employees visit their provider for preventive care, the amount charged for service does not decrease their annual maximum.
- This example shows typical dental services for a child during the year and how the maximum balance would vary with and without Preventive Passport.

	PREVENTIVE PASSPORT	W/O PREVENTIVE PASSPORT
<b>PREVENTIVE SERVICES<sup>2</sup></b>

<b>YEARLY MAXIMUM</b>	<b>\$1,000</b>	<b>\$1,000</b>

## ADDITIONAL Flexibility

To offer additional benefit flexibility, Preventive Passport can be used as part of a choice arrangement. A policy year maximum is also available.

And, when employees visit network providers, they can stretch their dental benefits even further by taking advantage of our negotiated discounts. Preventive care is important and Preventive Passport is a good way to help employees seek it.
