

Group dental insurance

# Extra dental benefits when they're needed the most

Did you know that good oral health helps improve overall health? That's why the dental insurance you offer employees is so important — especially for those with certain conditions that put them at risk for dental problems.

The group dental insurance you have from Principal® offers those employees additional benefits so they can get the extra care and advice they need. Here's how...

**Periodontal (gum-related) care** — Employees who are pregnant or have diabetes or heart disease face unique dental health challenges. Principal recognizes that and offers them!:

- › 100% coverage for scaling and root planning, or
- › Coverage for one additional cleaning (routine or periodontal), subject to policy benefits

**For those facing cancer treatments** — We all know that cancer treatments can be hard on the body. They can also be hard on the teeth. Principal provides additional benefits to employees going through chemotherapy and/or head/neck radiation therapy. Yearly they can receive:

- › 100% coverage for three fluoride treatments
- › One additional routine cleaning

**Second opinions** — Root canals, crowns, orthodontia, implants, oral surgery — these can be costly. Some employees may seek a second opinion before proceeding. Principal covers second opinion visits at 100%.

### Have employees who are pregnant?

Taking good care of their  
teeth is important to them  
and their babies!
