Select PPO

Help your clients save money without compromising on choice or innovation

With the combination of our Select PPO network and Select PPO plans, we offer a large provider network and plan designs that translate to both big savings and lots of access for your clients.

Clients receive a range of premium savings based on location, network and plan designs. In addition to saving money, your clients can count on the same quality they have come to know from Anthem Blue Cross (Anthem).

Cost efficiency

As a way to create greater network savings, a standardized industry methodology is used to find physicians who practice with the most cost efficiency. This methodology looks at all areas of care including professional, institutional, diagnostic testing, inpatient/outpatient care and prescription drug costs. By identifying these physicians and physician groups, we can offer an exceptional network at a lower cost. The table shown below illustrates the level of network savings achieved by county.
