- 1 Copayments or coinsurance for covered services accrue to the calendar year out-of-pocket maximum except copayments or coinsurance for:
 - Charges in excess of specified benefit maximums
 - Bariatric surgery: covered travel expenses for bariatric surgery
 - Dialysis center benefits: dialysis services from a non-participating provider

Copayments, coinsurance and charges for services not accruing to the member's calendar year out-of-pocket maximum continue to be the member's responsibility after the calendar year out-of-pocket maximum is reached. Please refer to the Summary of Benefits and *Evidence of Coverage* for additional details.
- 2 Member is responsible for copayment in addition to any charges above allowable amounts. The coinsurance indicated is a percentage of allowable amounts. Participating providers accept Blue Shield’s allowable amount as full payment for covered services. Non-participating providers can charge more than these amounts. When members use non-participating providers, they must pay the applicable deductibles, copayments or coinsurance plus any amount that exceeds Blue Shield’s allowable amount. Charges above the allowable amount do not count toward the calendar year medical deductible or out-of-pocket maximum.
- 3 Participating non-hospital based ("freestanding") outpatient x-ray, pathology and laboratory facilities may not be available in all areas; however the member can obtain outpatient x-ray, pathology and laboratory services from a hospital or an ambulatory surgery center affiliated with a hospital, with payment according to your hospital services benefits.
- 4 Preventive Health Services, including an annual preventive care or well-baby care office visit, are not subject to the calendar year medical deductible. Other covered non-preventive services received during, or in connection with, the preventive care or well-baby care office visit are subject to the calendar year medical deductible and applicable member copayment/coinsurance.
- 5 Participating ambulatory surgery centers may not be available in all areas. Outpatient surgery services may also be obtained from a hospital or an ambulatory surgery center that is affiliated with a hospital, and paid according to the hospital services benefits.
- 6 The allowable amount for non-emergency surgery and services performed in a non-participating ambulatory surgery center or outpatient unit of a non-participating hospital is \$350 per day. Members are responsible for the coinsurance and all charges in excess of \$350. Charges that exceed the allowable amount do not count toward the calendar year out-of-pocket maximum and continue to be owed after the maximum is reached.
- 7 Bariatric surgery is covered when prior authorized by Blue Shield; however, for members residing in Imperial, Kern, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara and Ventura Counties ("Designated Counties"), bariatric surgery services are covered only when performed at designated contracting bariatric surgery facilities and by designated contracting surgeons. Coverage is not available for bariatric services from any other participating provider and there is no coverage for bariatric services from non-participating providers. In addition, if prior authorized by Blue Shield, a member in a Designated County who is required to travel more than 50 miles to a designated bariatric surgery facility will be eligible for limited reimbursement for specified travel expenses for the member and one companion. Refer to the Summary of Benefits and *Evidence of Coverage* for further details.
- 8 The allowable amount for non-emergency hospital services received from a non-participating hospital is \$2,000 per day. Members are responsible for 50% of the coinsurance and all charges in excess of \$2,000 per day. Charges that exceed the allowable amount do not count toward the calendar year out-of-pocket maximum and continue to be owed after the maximum is reached.
- 9 For plans with a calendar year medical deductible amount, services with a day or visit limit accrue to the calendar year day or visit limit maximum regardless of whether the calendar year medical deductible has been met.
- 10 Services may require prior authorization. When services are prior authorized, a member’s share-of-cost is paid at the participating provider amount.

- 11 If the member or physician selects a brand drug when a Tier 1 drug equivalent is available, the member is responsible for paying the difference in cost between the brand drug and its Tier 1 drug equivalent, in addition to the Tier 1 drug copayment. The difference in cost that the member must pay does not accrue to any calendar year medical or pharmacy deductible and is not included in the calendar year out-of-pocket maximum responsibility calculation. The member or physician may request a medical necessity exception to the difference in cost as further described in the *Evidence of Coverage*. Refer to the *Evidence of Coverage* and Summary of Benefits for detail.
- 12 Network Specialty Pharmacies dispense Specialty Drugs which require coordination of care, close monitoring, or extensive patient training that generally cannot be met by a retail pharmacy. Network Specialty Pharmacies also dispense Specialty Drugs requiring special handling or manufacturing processes, restriction to certain physicians or pharmacies, or reporting of certain clinical events to the FDA. Specialty Drugs are generally high cost.
- 13 This plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called creditable coverage). Because this plan's prescription drug coverage is creditable, you do not have to enroll in a Medicare prescription drug plan while you maintain this coverage. However, you should be aware that if you have a subsequent break in this coverage of 63 days or more any time after you were first eligible to enroll in a Medicare prescription drug plan, you could be subject to a late enrollment penalty in addition to your Part D premium.
- 14 Contraceptive drugs and devices covered under the outpatient prescription drug benefits do not require a copayment and are not subject to the calendar year medical deductible. However, if a brand contraceptive is selected when a Tier 1 drug equivalent is available, the member is responsible for paying the difference between the cost to Blue Shield for the brand contraceptive and its Tier 1 drug equivalent. The difference in cost that the member must pay does not accrue to any calendar year medical or pharmacy deductible and is not included in the calendar year out-of-pocket maximum responsibility calculation. The member or physician may request a medical necessity exception to the difference in cost as further described in the *Evidence of Coverage*. Refer to the *Evidence of Coverage* and Summary of Benefits for detail. In addition, select contraceptives may need prior authorization to be covered without a copayment.
- 15 Services from non-participating providers, home health care, home infusion and hospice services are not covered unless prior authorized. When these services are prior authorized, a member's share-of-cost is paid at the participating provider amount.
- 16 Specialty drugs are available from a Network Specialty Pharmacy. A Network Specialty Pharmacy provides specialty drugs by mail or upon member request, at an associated retail store for pickup.
- 17 Blue Shield's Short-Cycle Specialty Drug Program allows initial prescriptions for select Specialty Drugs to be dispensed for a 15-day trial supply, as further described in the *Evidence of Coverage*. In such circumstances, the applicable Specialty Drug copayment or coinsurance will be pro-rated.
- 18 Mental Health and Substance Use Disorder Services are accessed through Blue Shield's Mental Health Service Administrator (MHSA) using Blue Shield's MHSA participating and non-participating providers. Only Mental Health and Substance Use Disorder Services rendered by Blue Shield MHSA participating providers are administered by the Blue Shield MHSA. Mental Health and Substance Use Disorder Services rendered by non-participating providers are administered by Blue Shield. For a listing of severe mental illnesses, including serious emotional disturbances of a child, and other benefit details, please refer to the Summary of Benefits and *Evidence of Coverage*. Inpatient services for acute medical detoxification are covered under the medical benefit; see the Hospital Benefits (Facility Services) section of the *Evidence of Coverage* for benefit details. Services for acute medical detoxification are accessed through Blue Shield using Blue Shield's participating providers or non-participating providers.
- 19 The comprehensive examination benefit allowance does not include fitting and evaluation fees for contact lenses.
- 20 This benefit covers collection frames at no cost at participating independent and retail chain providers. Participating retail chain providers typically do not display the frames as "collection" but are required to maintain a comparable selection of frames that are covered in full. For non-collection frames, the allowable amount is up to \$150; however, if (a) the participating provider uses wholesale pricing, then the wholesale allowable amount will be up to \$99.06, or if (b) the participating provider uses warehouse pricing, then the warehouse allowable amount will be up to \$103.64. Participating providers using wholesale pricing are identified in the provider directory. If frames are selected that are more expensive than the allowable amount established for this benefit, the member is responsible for the difference between the allowable amount and the provider's charge.
- 21 Contact lenses are covered in lieu of eyeglasses. See the "Definitions" section in the *Evidence of Coverage* for the definitions of Elective Contact Lenses and Non-Elective (Medically Necessary) Contact Lenses. A report from the provider and prior authorization from the Vision Plan Administrator (VPA) is required.
- 22 A report from the provider and prior authorization from the contracted VPA is required.
- 23 Members can search for vision care providers in the "Find a Provider" section of blueshieldca.com. All pediatric vision benefits are provided through MESVision, Blue Shield's Vision Plan Administrator. Any vision services deductibles, copayments and coinsurance for covered vision services accrue to the calendar year out-of-pocket maximum. Charges in excess of benefit maximums and premiums do not accrue to the calendar year out-of-pocket maximum.
- 24 Members can search for dental network providers in the "Find a Provider" section of blueshieldca.com. All pediatric dental benefits are provided by Blue Shield's Dental Plan Administrator. Copayments and coinsurance for covered dental services accrue to the calendar year out-of-pocket maximum, including any copayments for covered orthodontia services. Charges in excess of benefit maximums and premiums do not accrue to the calendar year out-of-pocket maximum.
- 25 There are no waiting periods for pediatric dental services.

- 26 The Member's Copayment or Coinsurance for covered Medically Necessary Orthodontia services applies to a course of treatment even if it extends beyond a Calendar Year. This applies as long as the Member remains enrolled in the Plan.
- 27 For covered services rendered by non-participating dentists, the member is responsible for all charges above the allowable amount.

Benefit Plans may be modified to ensure compliance with state and federal requirements.

This plan is pending regulatory approval.
