

Looking for more control over your healthcare costs?

You got it!

You can count on your Blue Shield of California PPO health plan when you're facing important healthcare decisions.

Our Treatment Cost Estimator lets you and your family members compare out-of-pocket costs and treatment cost estimates, and provides information about conditions and treatments! This easy-to-use online tool can help you budget and plan for future healthcare expenses.

After seeking care with a provider, you can use our Treatment Cost Estimator to:

- > Search and browse for more than 400 network procedures and treatments
- > Find cost estimates for procedures and treatments
- > Compare the cost of various treatment options
- > Compare cost savings between hospital settings and surgical centers for many treatments
- > Get overall average regional costs for procedures and treatments
- > Get an estimate on what might be expected in time for the different phases of a care path

Making the right choice is easy:

- 1 Log in to blueshieldca.com as a registered member.
- 2 Scroll down to the Coverage/Benefits section of the new Member Overview page and select *Treatment Cost Estimator*.
- 3 Browse by medical condition to see common treatments and services, or use *Quick search* and go directly to more than 400 treatment and service options by in-network providers.
- 4 Get detailed information about treatments including cost estimates, member out-of-pocket costs, possible treatment options, and timelines for phases of care to help plan for future medical expenses.

Take a moment and discover how easy it is to use.

Go to blueshieldca.com and register today.

The Treatment Cost Estimator allows PPO members to research treatment and service cost estimates for family members under the same plan who have been set up under Manage Family. Total cost estimates reflect claims data gathered from Blue Shield of California's provider network. For out-of-state searches, the Treatment Cost Estimator uses the nationwide provider network accessible to Blue Shield members.

Treatment cost and length of care may vary.

Note: Information provided by the Treatment Cost Estimator is for reference, regarding services and treatment only, and actual out-of-pocket costs may vary. The information provided is not a substitute for care provided by a licensed healthcare provider, and consumers are urged to consult their provider in all instances.
