Introducing Blue Shield's fast-growing plan*

Enjoy a smarter, more modern approach to health coverage with Trio HMO. Thanks to its unique design, Trio can help deliver a better care experience – all while keeping premiums as low as possible.

Lowering rates, not expectations

The cost of health care is unsustainable. With complicated care models and skyrocketing costs, today's health system is failing consumers.

That's where Trio comes in. As our fastest-growing plan, Trio aligns with our mission of providing access to high-quality health care at an affordable price.

Tangible benefits for employers

Trio offers a simple way to maintain a strong benefits program while reducing unnecessary expenses.

- Lower benefit costs without shifting cost to the employee through higher deductibles and copays
- Typically lower premiums than our Access+ HMO®, estimated at 12% to 15% less, depending on the region
- Cost trends lower than our Access+ HMO or full PPO, which can bring stabilization to annual price increases†
- More coordinated care, which can translate to faster returns to work and a higher level of employee wellness and productivity

A variety of plan design options

- Six plans offered for small businesses off exchange (1-100)
- 26 plans offered for large groups (101+)

Blue Shield has long been our go-to health services company because of its exemplary sales, management, and service team – and Trio simply put the cherry on the top. Our customers have enjoyed a smooth transition with no service problems. The Underwriting teams have a laser-focused rating model that gives real discounts."
