

# UnitedHealthcare's Focus Plan

# Focused on the details that help people live healthier lives.

UnitedHealthcare Focus<sup>1</sup> includes programs, wellness features, resources and tools that help support members and the physicians who care for them.

Designed for simplicity and savings, Focus is a new health maintenance organization (HMO) plan that provides the same level of coverage as our traditional HMO plans, but at a lower cost. The difference is in the refined local network: a narrower network designed to help keep costs in check.

## Refined network.

The Focus plan utilizes a distinct subset of UnitedHealthcare of California's full HMO network and provides access to select local physicians and specialists. These physicians coordinate care and work with their patients to help them manage their health and health care costs.

## Flexibility.

The Focus plan features preferred local provider systems and local community hospitals at significant savings compared to the more broad network offering. Employers can take advantage of savings for their local employee population, while having the option to wrap or pair the Focus network with additional UnitedHealthcare plans, to meet the health care needs of all employees, inside or outside the Focus plan area.

## How the plan works.

Members must select a primary care physician (PCP) from the Focus network, who will coordinate care with other physicians and specialists in the network.

## Wellness programs.

We believe that wellness programs in the workplace could save employers money. When employees learn how to make good decisions for their health, everyone wins. Available wellness programs include:

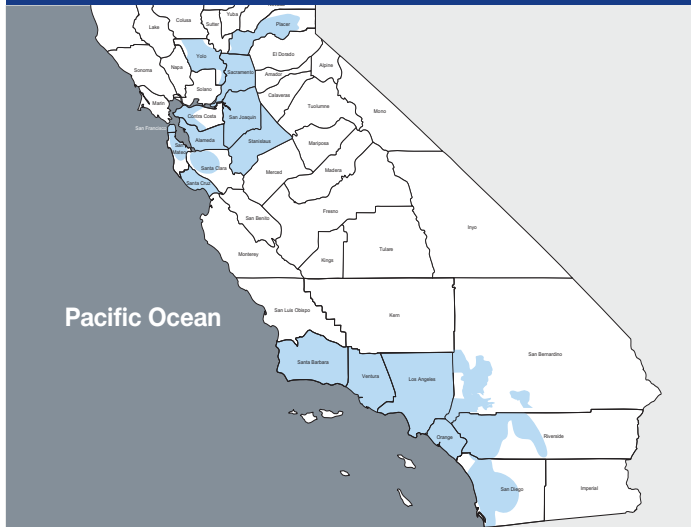

- UnitedHealth Wellness®.
- Fitness reimbursement program.
- Biometric screenings and coaching.
- Preventive care services.
- Member online portal.

## Focus plan offers:

- Access to PCPs and health care professionals at well-known medical group facilities.
- Preventive care checkups at no additional cost.
- PCP-coordinated care.
- HMO plans.
- Wellness programs and treatment decision support.

Favorable premium and benefit options designed to provide members with the health coverage they want and need at a more predictable and lower cost.
