If you terminate coverage after the start of orthodontic treatment, you will be responsible for any additional charges incurred for the remaining orthodontic treatment.

1. The following are not Covered orthodontic benefits:

- Extractions required for orthodontic purposes
- Surgical orthodontics or jaw repositioning
- Myofunctional therapy

2. If a treatment plan is for less than 24 months, then a prorated portion of the full Copayment shall apply.

3. If Covered Person's dental eligibility ends, for whatever reason, and the Covered Person is receiving orthodontic treatment under the plan, the remaining cost for that treatment will be prorated at the orthodontist's usual fees over the number of months of treatment remaining. The Covered Person will be responsible for the payment of this balance under the terms and conditions pre-arranged with the orthodontist.

4. If the Covered Person has the orthodontist perform a "diagnostic work-up" (a consultation and diagnosis) and then decides to forgo the treatment program, the Covered Person will be charged a \$50 consultation fee, plus any lab costs incurred by the orthodontist.

If both are necessary and active treatment for both extends beyond 24 months, the provider is obligated to accept the plan Copayment only for the first 24 months of active therapy. The provider may charge usual and customary fees for active treatment extending beyond the 24 month benefit period.
