With Rally it takes just a few minutes to answer some simple questions and get immediate and confidential results. You will be provided with specific health suggestions for you to consider and follow-up actions that are designed to work with you and your daily behaviors. This information may help you better understand your healthy behaviors to help you live a healthier lifestyle.

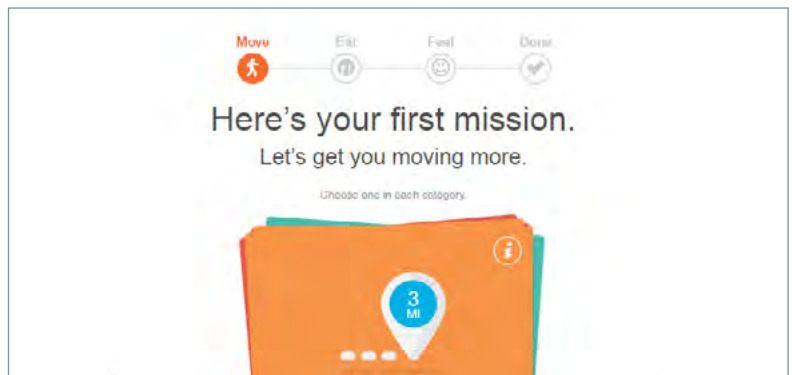

Rally Experience

With Rally, you will experience an interactive journey answering questions that will personalize your Rally experience. This Health Survey will provide you with visual prompts in a clear and easy to follow format. Upon completion of the Health Survey, you receive your results as a "Rally Age" – a number that provides you with an indicator of how your health age compares with your actual age.

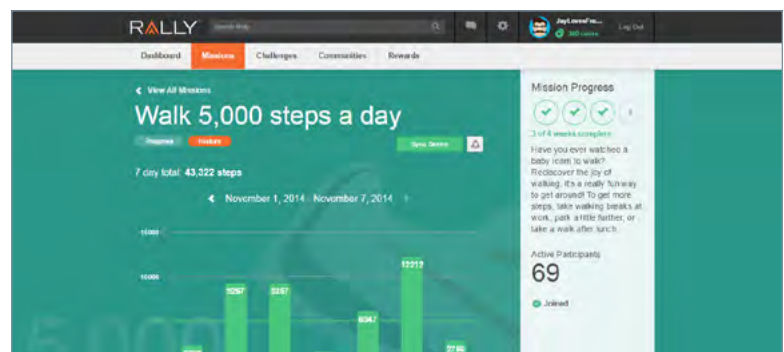

Select your Missions

In addition to your Rally Age you will also receive personalized and interactive results including suggested Missions, or individual action plans, based on your Health Survey. Missions provide activities to improve or help maintain your health.

Track your personalized missions

After joining your Missions you can easily track your progress by self-reporting or integrating wearable fitness devices from FitBit®, Jawbone UP®, or Body Media®.
