General Information (continued)

Enter the Prior Calendar Year Average Total Number of Employees Under Health Care Reform law, the number of employees means the average number of employees employed by the company during the preceding calendar year. An employee is typically any person for which the company issues a W-2, regardless of full-time, part-time or seasonal status or whether or not they have medical coverage.
 To calculate the annual average, add all the monthly employee totals together, then divide by the number of months you were in business last year (usually 12 months). When calculating the average, consider all months of the previous calendar year regardless of whether you had coverage with us, had coverage with a previous carrier or were in business but did not offer coverage. Use the number of employees at the end of the month as the "monthly value" to calculate the year average. If you are a newly formed business, calculate your prior year average using only those months that you were in business. Use whole numbers only (no decimals, fractions or ranges).

Enter the Prior Calendar Year Total Number of Eligible Employees For purposes of determining your number of eligible employees, Eligible employees are those who are eligible to enroll in any medical plan you offer, even if they aren't eligible to enroll in a UnitedHealthcare plan. Here you may add COBRA and retirees.
 Calculate your number of eligible employees from the preceding calendar year: (1) Count the total number of eligible employees at the end of each month (2) Add all the monthly eligible totals from line (1) and divide by 12. Use whole numbers only (no decimals, fractions or ranges and round down).

Enter the prior calendar year Full-Time Equivalent Total Number of Employees For purposes of determining your number of full-time equivalent employee count, the number of employees means the average number of employees employed full-time (at least 30 hours/week in any given month), by the company on business days during the preceding calendar year.
 In addition to the number of full-time employees noted above, for any month otherwise determined, include for such month the number of full-time employees divided by the aggregate number of hours of service of all employees who are not full-time employees for the month by 120. Employers should exclude employees who were seasonal workers who worked 120 days or fewer in the preceding calendar year.

UnitedHealthcare disclosure regarding producer compensation:

In some instances, we pay brokers and agents (referred to collectively as "producers") compensation for their services in connection with the sale of our products, in compliance with applicable law. In certain states, we may pay "base commissions" based on factors such as product type, amount of premium, group/company size and number of employees. These commissions, if applicable, are reflected in the premium rate. In addition, we may pay bonuses pursuant to programs established to encourage the introduction of new products and provide incentives to achieve production targets, persistency levels, growth goals or other objectives. Bonus expenses are not directly reflected in the premium rate but are included as part of the general administrative expenses. Please note we also make payments from time to time to producers for services other than those relating to the sale of policies (for example, compensation for services as a general agent or as a consultant).

Producer compensation may be subject to disclosure on Schedule A of the ERISA Form 5500 for customers governed by ERISA. We provide Schedule A reports to our customers as required by applicable federal law. For specific information about the compensation payable with respect to your particular policy, please contact your producer.
