

Connection Overview

Anthem Blue Cross and Ease are making it easier to offer and manage medical plans.

Direct Submission

Submit and send required enrollment data to Anthem Blue Cross via EaseCentral. Changes can be made in EaseCentral, and any adds, changes, and terminations will be automatically sent to Anthem Blue Cross.

Simple Setup

Quickly add medical benefit plans for each of your groups. Plan Libraries make rates, benefits, plan summaries, and other details automatically accessible in your EaseCentral account.

Fast ID Cards

Because plan data is submitted directly to Anthem Blue Cross, employees receive ID cards significantly faster.

How To Activate

Enable the connection in your Marketplace, and in the Marketplace for each group you want to use the connection for. Questions? Schedule live support with our connections team here: <https://meetme.so/ease>

01.

Use the EaseCentral Rate Library to add and configure the plans you would like to use the connection for.

02.

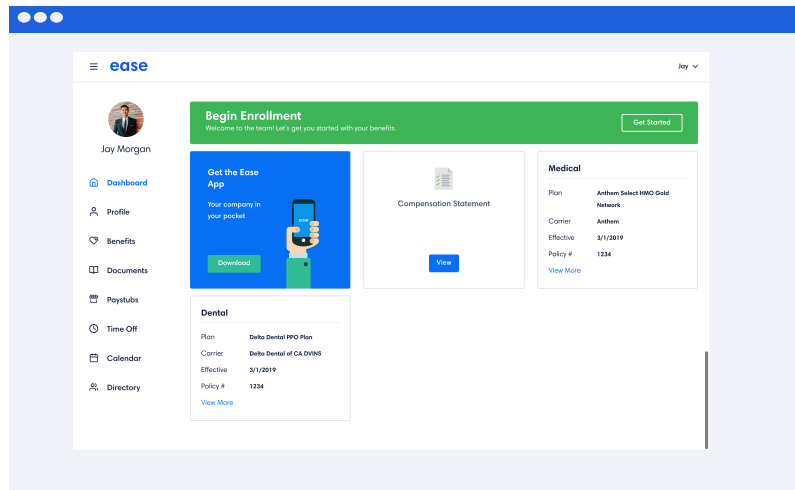

Plan Code	Column T	(Required)
Group Number	Column E	(Required)
Plan Type	Column U	(Required)
Rate Code	Column AA	(Conditional)
Provider Network	Column K	(Conditional)

Enable the Anthem Blue Cross connection in the your Marketplace and for each group that will utilize the connection. The Marketplace Setup Wizard will walk you through the necessary steps, including adding each groups' Anthem Blue Cross Account Structure.

03.

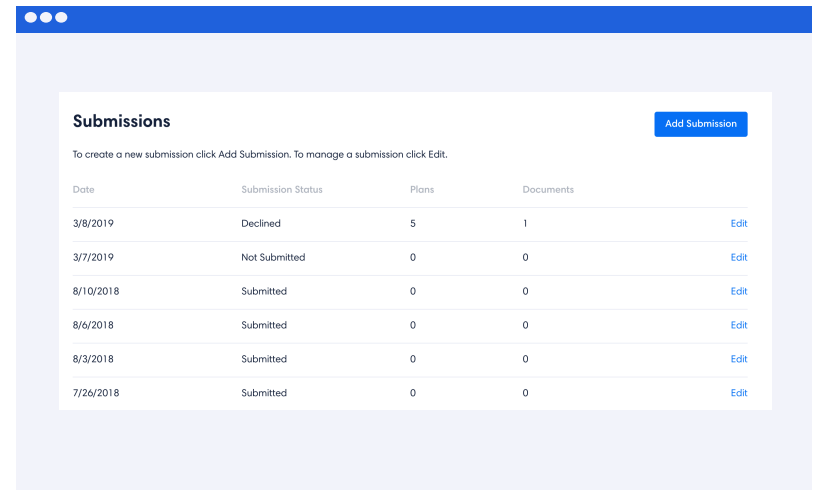

For groups already using a plan available via the connection, we automatically create a discrepancy report to ensure data matches in both systems. The report is used to import coverage from Anthem Blue Cross to minimize duplicate data entry.

04.

When it's time to enroll, employees will be able to enroll instantly in the Anthem Blue Cross plans you set up through the connection. You will be notified of who enrolled and if any errors occurred.

05.

Enrollment data will be automatically sent to Anthem Blue Cross. Adds, changes, and terminations will also be sent instantly once approved by you.
