

ease

Ease and Principal are connecting to make it easier to offer and manage dental, vision, and supplemental plans.

An API connection that allows you to quickly offer and manage Principal plans via Ease.

A Real-Time API connection

Information quickly flows between both Ease and Principal. Principal will process enrollment data and any qualifying changes from Ease within a few days. Status updates will be sent to your inbox.

Rapid Setup

Ease's connection with Principal typically takes a couple days to set up, much shorter than most benefit administration carrier connections. Enter your policy number and Ease will import the rest of your policy details from Principal via API, making setup seamless.

Automatic Changes

Any adds or changes made in Ease will be sent to Principal within a few days. You have the ability to view the status of all data sent to Principal from Ease.

Add New Lines Of Coverage

Increase your commission by easily adding new lines of coverage. This connection supports Principal's Dental, Vision, Life, Voluntary Life, Long-Term Disability, Short-Term Disability, Critical Illness, and Accident products.

How to activate

Enable

To get started with the Ease and Principal connection, please contact connectionsinfo@Ease.com.
